PEACE LEAGUE
VETO POWERS
ARE DEFENDEDBIG CONFERENCE
ROW IS ENDED
BY RUSSIA

BY DOUGLAS B. CORNELL

San Francisco, June 8 (AP)—The big five firmly and formally proclaimed today that their veto power is "essential" if a world league is to be created in which "all peace-loving nations can effectively discharge their common responsibilities" to maintain peace.

In effect, the United States, Russia, Britain, China and France put their veto authority up to the 45 smaller nations at the United Nations Conference on a "take-it-or-leave-it" basis.

They did it in a 1,200 word interpretation of how the veto privilege would work. It was submitted to a conference working committee dealing with the functions of a proposed peace-enforcing security council in which the veto formula would operate.

Russia ended the biggest row of the conference yesterday by swinging around to the position of the rest of the big five—that the veto shall not apply to the free discussions of international quarrels.

Delegates agreed small nations would accept, reluctantly, the requirement that all the five great powers must approve unanimously any steps taken by the council to settle disputes or prevent war.

A half dozen or more problems still remain before the conference.

Fair Employment
Practices Project
Granted No Funds

Washington, June 8 (AP)—Failure of the house appropriations committee to provide funds for continuance of the Fair Employment Practices Committee for the coming fiscal year came as a disappointment to Rep. Hook (D-Mich.).

Because of war production cutbacks and increased unemployment, Hook told the house, the end of the European war "has, if anything, further complicated the picture as far as discriminatory employment is concerned."

He commended the FEPC for "an extremely effective job" in preventing discrimination because of race, creed or color, and said its continuance was essential for an all-out war on Japan "requiring the fullest participation by all Americans on the production front."

LITTLE GIRLS CLEARED

Philadelphia, June 8 (AP)—Judge Charles L. Brown in juvenile court today cleared Irene Jones, 15, and her sister, Janet, 11, of criminal intent in taking three-month-old Thomas V. Ripley, Jr., from his coach last Thursday, playing house with him, and leaving him in a vacant lot where he was found dead of a broken neck.

Senate Committee
Knocks Out Truman
Tariff Cut Powers

Washington, June 8 (AP)—Powell sought by President Truman to cut existing tariff rates in half was knocked out of the reciprocal trade law extension bill today by a 10 to 9 vote in the senate finance committee.

Although the president declared the additional rate-cutting authority "essential," three Democratic members of the committee joined with seven Republicans to delete the provision. Eight Democrats, including Chairman George (Ga.), voted with Senator LaFollette (Prog-Wis) to retain the provision already approved by the house.

Two other members of the committee, Senators Connally (D-Tex.) and Vandenberg (R-Mich.), are in San Francisco as delegates to the United Nations conference. George said he understood Connally favored retaining the extra rate-cutting power and Vandenberg opposed it.

FOOD SUPPLIES
FOR ARMY BURNRations For Pacific War
Area Destroyed In
6-Alarm Blaze

Oakland, Calif., June 8 (AP)—Tons of military food supplies for the Pacific war area were destroyed at Camp Knight today in a spectacular six-alarm fire which sent up a pillar of black smoke visible for miles.

The rations were stored in the middle section of a five-section warehouse, but the fire was kept from spreading by 15 pieces of equipment from the Oakland fire department, and walls between the sections.

Three or four men were injured slightly, as soldiers aided firemen in combating the blaze. Negro stevedores were credited with saving a great quantity of food by carrying boxes on motor lifts while the flames raged.

Army public relations officers denied a report that munitions were stored in the warehouse. They said an army board of inquiry would attempt to determine the cause of the blaze and the damage done.

Government Upheld
In Ward Seizure

Chicago, June 8 (AP)—The U. S. circuit court of appeals today upheld the government in its seizure December 28 of facilities of Montgomery Ward and company in Chicago and six other cities, reversing a January 27 federal district court ruling.

The appellate court in a two to one decision directed that an order be entered granting the relief sought by the plaintiff which was the government, asking for a judgment to uphold legality of the seizure order by the late President Roosevelt and for an injunction to restrain Ward's from interfering with army operations.

Judges Evan A. Evans and Otto Kerner constituted the majority. Judge Will M. Sparks dissented.

In January District Judge Philip L. Sullivan held that President Roosevelt had neither statutory nor constitutional authority to order the seizure which followed a long labor dispute, strikes here and in Detroit and Ward's refusal to accede to War Labor Board orders for the granting of the maintenance of union membership.

The army has retained possession of the properties in Chicago, Detroit, St. Paul, Minn., Denver, Colo., Portland, Ore., San Rafael, Calif., and Jamaica, N. Y., under a status quo order by Judge Sullivan.

Bay City, Mich., June 8 (AP)—Fred S. Wacker, assistant general manager of Electric Auto-Lite Corporation's Bay manufacturing division, pleaded innocent of assault and battery when arraigned today in municipal court.

He was charged with assault and battery, police said, after his car struck and injured a patrolman and three women members of a picket line near the plant's gates.

WON'T FREE SELIK

Lansing, June 8 (AP)—The state supreme court today refused to issue a writ of habeas corpus releasing Mike Selik, one of four men accused of conspiracy to murder the late Senator Warren G. Hoover, and upheld a contempt of court citation which sent him to jail for 60 days.

Selik's sentence will expire June 28. He is described by state police as a one-time member of Detroit's notorious Purple Gang.

Army Asks 400,000
Reserve Officers
In Postwar Setup

Washington, June 8 (AP)—A postwar reserve officer force of 400,000, capable of staffing an army of 4,000,000 men, is part of the army's projected peacetime setup.

It was disclosed tonight by Brig. Gen. E. A. Evans, who headed a war department committee which drafted a postwar program for reserve officers. Evans was released from the army three weeks ago to become secretary of the Reserve Officers Association, reactivated to support the program.

The plan calls for about four times as many reserve officers as there were before the outbreak of hostilities. They would be obtained from the officer ranks of the existing army, from the reserve officer training corps, the national guard and officer candidate schools. Certain specialists, such as clergymen and physicians, also would be commissioned regardless of military training.

NEW YORK RACE
FOR MAYOR ONDemocrat Endorsed By
Republicans; 3-Way
Fight Indicated

New York, June 8 (AP)—The naming of a Democrat as the Republicans' candidate for mayor of New York City today produced a political uproar that gave promise of resulting in a three-way free-for-all fight.

These were the principal developments a few hours after the city's five Republican leaders endorsed Judge Jonah J. Goldstein, Democrat, to head their city ticket.

1. Newbold Morris, named by the Republicans for renomination as city council president, turned it down and said he was willing to make a primary fight against Goldstein on a "good government" ticket.

2. Samuel Seabury, leader of three successful fusion campaigns for Mayor F. H. La Guardia, said neither Goldstein nor Brooklyn District Attorney William M. O'Dwyer, the Democratic leaders' choice for mayor, was "worthy of support."

Morris had fusion support when he was elected four years ago and almost certainly would get the party's support for the higher office unless La Guardia, now completing his third term, changed his mind and sought re-election.

Morris said the Goldstein slate would become known as the "yellow dog ticket." Seabury said it meant that "we now have two Tammany Hall tickets in the field." Informed of Morris' withdrawal, Goldstein said: "It will mean the selection of a far superior candidate."

Methodists Approve
Increased Pension
Pay For Ministers

Grand Rapids, Mich., June 8 (AP)—Michigan Methodists, at their seventh annual conference here today, approved a campaign to raise \$500,000 to increase pension payments to ministers, their widows and families.

Of the half-million dollar goal, it was decided to assign \$350,000 to Michigan Methodist churches and \$150,000 to special contributors.

Until sufficient funds are collected to put the new plan into effect, ministers will continue to receive one per cent of their cash salary to a pension fund.

Beverly Hills, Calif., June 8 (AP)—As Walter Winchell put it, his daughter Walda and her bridegroom of three days have "phfft!"

The columnist said his 18-year-old daughter called him from New York and revealed that she and William Lawless, who were married in a surprise ceremony last Tuesday, had agreed to an annulment.

PRINTERS FOR YANKS

Poesneck, Thuringia, June 8 (AP)—The Vogel Verlag, one of the best known publishing houses in Germany, was busy today turning out a history of the U. S. 30th Infantry Division. Its last task was printing editions of "Mein Kampf" at the direction of the Hitler's own publishing house, the Eser Verlag in Munich.

Unlike the prewar setup in which the reserve officers were assigned to skeleton units—those without enlisted personnel—the postwar plan provides for a number of reserve organizations fully manned by officers and enlisted men.

These organizations, kept in training with weekly drills and summer encampments, could be mobilized immediately, Evans said, in the event of an attack on this nation. Along with the regular army and the national guard, he explained, these organizations would form an effective "neutralizing" force until a larger army could be put into the field.

In addition to these fully staffed reserve organizations, the plan provides for two other types: 1—Units which have part of the regular strength of enlisted personnel and 2—units similar to the prewar organizations in which there was a staff of officers but no enlisted personnel.

The complete units, Evans said, would be trained in armories and the men paid—as the national guard is paid—for weekly drills.

Evans acknowledged that before the key parts of the plan can become effective, congress must provide for universal training—the reservoir from which the enlisted reserve personnel would be drawn.

SENATORS PUSH
SALARY RAISESWage Grab In Midst Of
War Condemned By
Other Solons

Washington, June 8 (AP)—Two senators took a cue from President Truman today and moved to double the \$10,000 salaries of congress members. Another accused the house of voting itself "a wage grab" in the midst of war.

Senators Overton (D-La.) and Bridges (R-N.H.) introduced a resolution to raise the salaries of senators and house members to \$20,000 a year, at the same time boosting the pay of cabinet officers from \$15,000 to \$20,000 and raising the compensation of the vice president and the speaker of the house from \$15,000 to \$25,000.

They tossed in their resolution less than 24 hours after President Truman told a news conference he thought congressmen were underpaid, and that he would be willing to sign legislation raising their salaries to somewhere in the \$15,000-\$25,000 range. The president's remarks were occasioned by house passage of a bill granting each representative (though not the senators) an expense allowance of \$2,500 a year.

Bases On Borneo

Gain In Philippines

Manila, Saturday, June 9 (AP)—Heavy aerial pounding of Japanese bases on Borneo is continuing, with daring torpedo-boat sweeps off that island's north coast. Gen. MacArthur announced today as the ground forces in the Philippines recorded gains of one to seven miles in the cleanups on Luzon and Mindanao.

Heavy, medium and fighter bombers hit Borneo with 170 tons of bombs, cratering airfield runways, planes, destroying two grounded planes and setting many fires, MacArthur's communique stated.

Held Back By OPA

John Foley protested in a telegram today to President Truman that this town of 700 people has "a small creamery which has nearly 8,000 pounds of butter in refrigeration which they cannot sell according to OPA regulations."

He demanded "immediate action to release that butter and reduction of demand points according to OPA regulations."

Newburg, Mo., June 8 (AP)—At least four persons were drowned and several others are missing in a flash flood which roared along the little Piney River through Newburg today, destroying the entire business district of the town.

Among the known dead were the wife and daughter of Mayor S. L. Baker.

FOOD MAY BE
HANDICAP FOR
TOURIST BOOMMICHIGAN RESORTS
SEE CHANCE FOR
GOOD SEASON

Lansing, June 8 (AP)—Food, not gasoline or tires, may be the big stumbling block to a boom tourist season in Michigan this summer, Michigan resort officials reported today.

But, the heads of three of the state's regional tourist associations say early season indications point to a good season generally. They believe the vacation-hungry public will come to the lakes and streams of Michigan and that somehow the resort operators will show them a good time.

Most resort officials advise tourists to bring as much food and ration points with them as they can.

Peninsula Hardest Hit

They estimate that tourist patronage may increase from 10 to 15 per cent above last year in the Lower Peninsula, but in the Upper Peninsula operators do not expect a boom year until gas and tires are plentiful again. Nevertheless, they expect to get a share of the trade.

Conceding that a recent increase in gasoline "A" rations will boost business a little, the tourist association chiefs do not expect any miracles from that factor. They assert it will permit tourists to move a little farther from congested centers, thus spreading the business out more and permitting a larger number of persons to be handled comfortably.

For the most part, they say, tourists still plan, as they have for the past two war summers, to go to one convenient resort, stay there for the duration of their vacation. There will be little roaming around and few persons plan to take their vacations in snatches.

Rest-Cures Wanted

William Palmer, secretary of the West Michigan Tourist and Resort association, reported that house-keeping cottages and cabin groups along Lake Michigan, especially south of Muskegon, are well reserved already, but that reservations still may be obtained for July in some spots along the northwestern shore.

Looking to a healthy tourist season, Palmer said he estimated the state might take \$250,000,000 from the vacationing public this summer. In pre-war days, the value of the tourist industry was placed at \$300,000,000 and up.

Advance inquiries indicate an increase of as much as 15 per cent in the other side of the Lower Peninsula, according to Frank Davis, secretary of the East Michigan Tourist association.

Davis reported that with the exception of roadside camps, there are more resorts in operation in this area this year than ever before. Resort operators report they have benefited by the desire of tourists to enjoy an "old-fashioned" vacation in one place, rather than shopping around.

Davis said most of the letters received from prospective vacationers indicate they want a "rest cure" from war-time stresses.

Gas-thriftiness is showing a renewed interest in canoe trips, Davis reported and resort operators are studying the possibilities of that sport. The Michigan tourist council is preparing a map of 33 canoe trips.

Desire Accumulates

Bishop indicated that Upper Peninsula resort operators, forced by the obstacle of distance to take a reduced tourist flow, believe their area will boom tremendously when the public can get gas and tires. He said inquiries show a "huge backlog of vacation desire, which accompanied by accumulated vacation budgets in nearly every family, is indicative that our patronage after victory will reach a new high."

The resort officials say that the Office of Price Administration has failed to consider seasonal business fluctuations when fixing meat ration quotas for resort restaurants.

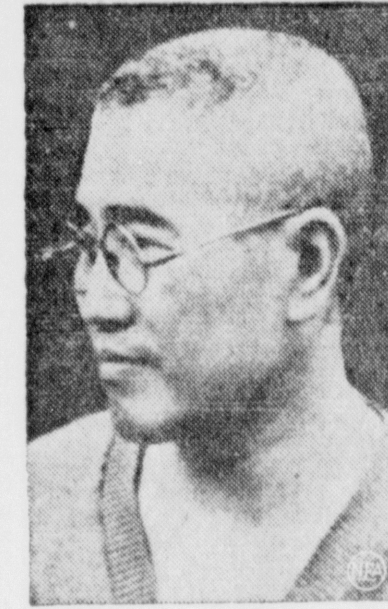

The Michigan Hotel association, contending that OPA rules give the "hot dog stand type of operator" an undue advantage over the proprietor of established dining halls serving expensive meals, have complained to the OPA. Recently, however, the OPA has ordered a further reduction in restaurant and hotel ration points.

Washington, June 8 (AP)—Individual purchases of bonds in the Seventh War Loan reached \$4,345,000,000, 69.2 per cent of the \$7,000,000,000 quota as the treasury derided today the lack of spontaneous buying.

Of the individual purchases to date, \$2,226,000,000 were in "E" bonds and represented 56 per cent of the \$4,000,000,000 "E" bond quota.

DRAFT OPPOSED
FOR PEACETIMECompulsory Training
Leads Only To War,
Ex-Officer Says

Washington, June 8 (AP)—A former lieutenant colonel who gave up his commission to fight compulsory military training told a congressional committee today that peacetime conscription "can only mean preparation for war with Russia."

Norman Thomas, head of the Socialist party, another witness before the house committee on postwar military policy, asserted that "if military conscription is the secret of defense Russia will win."

Thomas testified ahead of Roscoe F. Conkling, the former army officer.

The two testified on peacetime draft proposals shortly after Secretary of War Henry L. Stimson had told his news conference he would not quit "conceive that any officer of the United States army would be so deficient in judgment" as to say he wanted to fight Russia.

The secretary's comment was in answer to a news conference question about a remark which a reporter (International News Service) attributed to Rep. Coffee (D-Wash.). The congressman was quoted as saying some unidentified military men want war with the Soviet Union.

Conkling, after asserting that a peacetime draft would mean preparation to fight the U. S. S. R., said:

"We don't shout it from the housetops, but the average American knows that."

He added that "agitation for peacetime militarization of our youth * * * is needlessly and recklessly sowing the seeds of war."

Duck Season Not
Too Bad Last Fall

Lansing, June 8 (AP)—Figures compiled by conservation department statisticians do not confirm complaints from duck hunters that last fall's duck season was the poorest in years, the department reported today.

The department said 74,962 hunters killed 548,293 ducks last fall, an average of 7.31 birds per hunter, or just a few points under the 1943 average and better than the average for the previous years.

The best records: In 1943-75, 294 hunters, 552,983 ducks, an average of 7.34 per hunter; 1942-77, 122 hunters, 552,335 birds, an average of 7.16 birds per hunter; 1941-74, 461 hunters, 520,432 birds, an average of 6.86, and 1940-71, 727 hunters, 488,369 birds, an average of 6.81.

Republicans Score
In Drive To Slash
War Agency Funds

Washington, June 8 (AP)—Republicans scored a major victory tonight in a drive to slash funds of war-created agencies by cutting \$17,000,000 from the 1946 fiscal year allotment for the Office of War Information.

The 133 to 128 roll-call vote that left OWI with only \$18,000,000 for its operations—unless the senate restores the house reduction—climaxed a G. O. P.-powered campaign to withhold funds from the Office of Economic Stabilization and the Office of Inter-American Affairs and to curb the allotment of the War Relocation Authority.

The economy drive against OEW, WRA and the Office of Inter-American Affairs bogged down.

All the agencies were included in a \$752,164,850 measure financing fifteen war agencies for the year starting July 1. The bill was passed, 251 to 2, and sent to the senate. Only the OWI fund was reduced. None was increased.

No funds were provided for the Office of Price Administration, the Foreign Economic Administration or the Fair Employment Practices Committee. The appropriations committee withheld new money for that trio of agencies because legislation affecting all of them is pending in congress. An attempt to provide \$599,000 for the FEPC through floor action touched off a heated discussion during which Representatives Marcantonio (Amn. Lab.-N. Y.) and Chelf (D-Ky.) almost came to blows.

ABOUT 200,000
JAPS ISOLATEDTwo Former U. S. Bases
Likely To Be Taken
Back By Chinese

Chungking, June 8 (AP)—A Chinese army spokesman said today that approximately 200,000 Japanese troops have been isolated in southern Asia as the Chinese offensive rolled into the northern suburbs of the vital Kwangsi province air base city of Liuchow.

The spokesman said it was quite possible that Liuchow and Kweilin, 90 miles to the northeast, would fall to the Chinese. Both cities were base sites for the U. S. Air Force, and their recapture would aid American air power in southern China.

A battle for Liuchow apparently was taking shape. The Chinese said the enemy, which has occupied the city for seven months, had strongly fortified the area and concentrated a large number of troops there.

The Chinese high command's announcement of Chinese operations around Liuchow made it plain that unofficial reports two days ago of the city's fall were premature.

Chinese units have taken Tatung, on the Indo-China highway 21 miles southwest of Liuchow, and appear now to be in position to cut the Kwei-Yang-Kwangsi railroad west of Liuchow. This railroad is the main escape route for the Japanese at Ishan.

American officers said other Chinese forces moving against Ishan along the railroad were within six to 12 miles of the town from the west.

PLANES ATTACK;
67 SHOT DOWN

Guam, Saturday, June 9 (AP)—Between 100 and 150 Superfortresses attacked aircraft factories at Nagoya, Naruo and Akashi today with high explosives in a three-way raid on the enemy main island of Honshu.

It was the first all high explosive raid since May 19 when the B-29s struck Hamamatsu although high explosives as well as fire bombs were dumped on the arsenal city of Osaka Thursday.

The raiders flew today without fighter escort and bombed visually from medium altitude in daylight.

Industries Burned Out
It was the third strike of the Marianas-based sky dreadnaughts this week against the enemy homeland which has been warned by Tokyo radio that B-29s are ready to hit the medium and small as well as large cities.

About 450 of the big bombers struck Kobe Tuesday and followed that up in equal strength Thursday against Osaka, leading industrial city of the entire Orient.

More than 90 square miles in the congested, industrial sectors of Tokyo, Osaka, Kobe, Nagoya and Yokohama have been either burned out or badly damaged by the mounting air assaults.

TAVERNS FAVOR EARLY CLOSING

Tavern Association Is Asking Midnight Closing Here

The members of the Delta County Tavern association have voted with only two exceptions in favor of a 12 o'clock closing for establishments selling liquor, the Escanaba city council was informed last night.

In a letter addressed to the governing bodies of the cities, towns and the Delta county board of supervisors, the Tavern association asked, besides the midnight closing:

"That all taverns be closed Sunday through Friday at 12 o'clock sharp with no grace period. Saturdays, the eve of and all legal holidays and conventions shall be the same as the liquor commission of the state specifies, 2 o'clock closing and every patron off the premises by 2:30 o'clock."

A two-thirds vote of the operators would make it possible for the association to go on record favoring a change back to the present closing times.

The city council last night assented to the request of the Tavern association and authorized the drawing of a resolution requesting the 12 o'clock closing in Escanaba. The resolution will come up for action at the council's next meeting.

John Gannon, Escanaba, chairman of the board of directors of the association, presented the association's letter to the council last night. He said that only two of the members of the association had opposed the earlier closing time. It is proposed to start the midnight closing July 1, he told the council.

Mrs. Angus Pineau was most agreeably surprised Tuesday evening at her home in Maplewood when a number of her friends from Gladstone came to spend the evening bringing with them the "makings" of a nice lunch. Games were enjoyed with Mrs. Pineau winning first prize and Mrs. Clyde Paeske the consolation. Guests present were Mrs. Clyde Paeske, Mrs. Daniel Finlan, Mrs. Harold Nehmer, Mrs. Helmer Peterson, Mrs. Ray Barber and Miss Eusebia Louis all of Gladstone and Mrs. Ned Short of Rapid River.

Pvt. William Young returned Monday to Battle Creek after a 30 day visit at his home here.

Miss Maxine Young who has been visiting her parents, Mr. and Mrs. Alvin Young, for the past several months returned to Detroit where she will be employed.

Mrs. William Young and two children left Saturday for Detroit where she will visit her brother Willard Sprick and family for several weeks.

Mrs. Jennie Rushford and sister Mrs. Nellie Sprick have gone to the Rushford farm where they will spend the summer.

Marion Uebrecht left Saturday, returning to Chicago where he is employed after a week's visit with his mother, Mrs. Wilna Uebrecht. Enroute he will visit his brothers Ted and family at Royal Oak and

Everett and family at Port Huron.

Mrs. Amelia Buehler spent last week at Danforth with her niece Mrs. Charles McKloskey and family.

Mrs. W. S. Young and son Ted of Marquette spent Memorial day here with Mrs. Milna Uebrecht.

Kurt Soderberg arrived Wednesday from Howland, Maine, where he is employed with the Harrison and Croftfield Plywood Co., for a few days visit, returning he will be accompanied by Mrs. Soderberg and son Milton who will remain there for some time.

Todd C. Ewald expects to leave June 11 for Waterloo, Quebec, Canada where he has accepted employment. Dan Oberg will accompany him and spend several days there.

Pvt. Robert Oberg who left here for induction in the army on April 26 is now at Camp Ellis, Ill.

Dan Oberg spent several days at Munising on business during the past week.

Miss Betty DeKeyser of Gladstone spent several days this week visiting at the Bob Murchie home in Masonville.

Miss Lillian Johnson left Tuesday morning for San Francisco, Calif., where she will remain for several weeks.

R. J. McPherson arrived here Saturday morning from Milwaukee where he has been employed for the past six months.

Miss Carol Larson of Masonville left Monday for Sturgeon Bay, Wis., to visit her two sisters Opal and Marion.

Mrs. M. McCane and daughter of Decatur, Ill., are visiting Mrs. Lloyd Belland.

REVIEW BOARD ENDS HEARINGS

Rechecks Will Be Made; Known Errors To Be Corrected

The Escanaba city board of review yesterday ended its hearings of complaints on the new valuations as established in a reappraisal of all taxable property in the city and next week will continue the work of making what readjustments it considers necessary.

E. T. Wilkins, representative of the J. M. Clemishaw company of Cleveland, which made the reappraisal as authorized by the city council, said that some rechecking in the field will be made on incorrect measurements or improper listings.

Any errors that have been discovered, either because of the complaints or through further investigation, will be corrected.

Altogether since Monday the board of review has heard a total of about 160 complaints in which the property owners appeared in person to support their claims. In addition some 150 complaints were filed on paper.

Wilkins pointed out that in a few cases the complainants revealed information on improvements to their property which were not originally listed. When the corrections were made to the record it is probable that the valuation of the property would be increased. A complaint filed with the board will not necessarily result in a downward adjustment of the valuation, it was pointed out.

The board of review has also considered approximately 275 requests for exemptions. These were filed by war widows, disabled veterans and other persons whose incomes made it impossible for them to meet increased valuations.

LARGE ESTATE TAX

Menominee—The state primary school fund will be enriched by \$8,000 to \$10,000 when estates of seven Menominee county residents with an aggregate value of more than \$260,000 are finally settled. The estates and their declared approximate values, now in the process of probate before Judge Katherine Stiles Loughton, are those of:

Gerald A. Spies, \$90,000. Nels Gilbert, \$4,000. Fabian J. Trudell, \$38,000. Louis Kreuz, \$37,156. Mose Christian, \$22,700. Henry Brown, \$20,000. Edna Mae Bemus, \$12,000.

Amounts listed above are assets subject to probate and not necessarily the total value of the estate. Where property is jointly owned it is not subject to probate.

Mr. and Mrs. Andrew Barbeau, of Ensign, Mr. and Mrs. Joseph Teinert of Ensign, Mr. and Mrs. Meddie Barbeau and Mr. and Mrs. Wilbur Borland of Detroit were dinner guests of Mrs. Jennie Duranace Wednesday evening.

Anita Person left Thursday morning via 400 for Rock Island, Ill. to attend the high school graduating exercises at which her brother John is a member of the graduating class. Anita will spend a week there, returning John will accompany her enroute they will visit at Lansing with their father Carl Person and sister Marie Person.

Miss Elaine Lind arrived Tuesday evening from Chicago where she is a student nurse at Augustana hospital. She will visit here for a week.

Petition Council For Sewer Service

Residents on Fifth avenue south near Twenty-third street last night petitioned the Escanaba city council for extension of a sanitary sewer to correct the present unsanitary condition that now exists there. They also asked consideration in the erection of new street lights.

They were advised by the council that the city manager would make a survey to determine the cost of extending the sanitary sewer before the next meeting, and requested that a petition be formally signed and presented to the council then.

The petitioners told the council that present conditions are a menace to the health of the residents in that locality.

Other petitions and requests before the council included:

Request of the Delta Hardware company to construct a loading ramp in the alley between its main building and its warehouse. This would close the alley to through traffic. The council favored the request, said it would be advertised and a date set for hearing objections.

Received a petition signed by Edward St. Antoine and 10 others for the erection of street light on the corner of Fourth avenue north and Nineteenth street.

Received a petition signed by two residents in the 600 block, South Twentieth street for a water main extension.

Hunting Seasons Are Set For 1945

Lansing, June 8 (AP)—Game seasons for 1945 hunting will be established by the State Conservation Commission from recommendations of the game division at a meeting here Monday night.

The recommended game seasons include:

Deer—no change from last year for rifle hunters, Nov. 15 to 30 north of the Bay City-Muskegon line; bow and arrow season, Oct. 1 to Nov. 5. Instead of Nov. 1 to Nov. 14 as last year; Allegan county antlerless bow and arrow season, Oct. 1—Nov. 30, an extension of a month over last fall; and the special Allegan county antlerless rifle season, Dec. 1-10, for 300 hunters.

The decision recommended no changes in the pheasant, partridge, prairie chicken, sharp-tailed grouse, rabbit, muskrat and raccoon seasons.

Approximately 7,000 persons were drowned in the United States last year.

Council Approves Building Permits

The construction of a Coca Cola company bottling plant as a post-war project was approved by the Escanaba city council last night under the council's policy of more closely checking on all applications for construction. This policy is being followed because of a growing disregard of the city's zoning ordinance.

There was no question however, on the council's favorable action on the request of the Coca Cola company for a building permit. The building will be located in a commercial district on South twenty-third street and First avenue south.

Nick and James Bink of the Coca Cola company's local distributing agency were present at the council meeting. Nick Bink said the company proposes to build a modern two-story brick bottling plant.

At the same meeting the council rescinded its former action in selling lots in the 300 block, Ludington street, to the Pepsi-Cola company, which had proposed to build a bottling plant there. The council was advised that because of reduced allotments of sugar the construction of the building could not be undertaken. Since the sale was on condition that the building be erected as soon as possible, the council canceled the sale.

Walter Richer of 211 South Fifteenth street was granted permission to continue his construction of a two-car garage, provided a fireproof wall was built between his garage and the one immediately adjacent.

Leo Moreau of 1515 North Eighteenth street was also authorized to complete his construction of an addition to his dwelling.

The council voted to sell Edward St. Antoine of 500 North Nineteenth street a city-owned lot next to his property for \$137.50.

City To Pay Costs In Child's Death

The Escanaba city council last night voted the reimburse Mr. and Mrs. Chester Marrier of Escanaba in the amount of \$435 for the medical, hospital and funeral bills incurred in the death of their child, Lee Marrier, four, who was killed when he ran into the side of a city-owned automobile last month.

The council was advised by City Attorney Denis McGinn that the city was not liable in the accident, he believed.

However, because the city-owned car, driven by Fire Chief Arvid Johnson, was not insured, the council approved payment of the bills. The Marriers have four other children.

At the same meeting the council approved a contract to include the car of the fire chief and certain other city-owned cars in the city's fleet insurance policy.

CONSIDERED LABEL BILL

The U. S. Congress once considered a bill providing \$1000 fine for anyone caught displaying American flags which did not bear the stamp, "Made in the U. S. A."

Work accidents cost the loss of 900,000 man-hours of labor in 1944.

Police Win Stork Race To Hospital

Racing against time—and the stork—Escanaba policemen at 11 o'clock Thursday night arrived at St. Francis hospital with Mrs. Wilfred Borden of 1311 North 16th street who, a few minutes later, became the mother of a son.

The emergency call to the police was made after the Borden were unable to obtain a cab immediately.

Policemen Joseph Corcoran and Eric Pierson, after returning from their hurried trip, reported they had "beaten the stork by about five minutes."

Big Spring In Eruption - Third Time Since 1935

The Big Spring, famed for its size and depth and the clarity of its water, is today an expanse of murky muddiness with the water bubbling furiously from its center. What is happening? Nobody seems to know for there are many things about that unusual body of water that defy scientific interpretation, but John I. Bellaire, while he lays no claim to being a scientist, knows the whims of the Big Spring and has recorded the fact that the spring has acted in a similar manner three times in the past ten years. This disorganized state of the water has lasted three or four days and then it has again become clear.

Old World Music Scores Hit With Local Audience

Simple, melodious folk songs that were heavily laden with wistful memories for many of those present, provided very pleasant entertainment for the crowd that filled Zion Lutheran church to its capacity last Thursday evening. The program, which was presented by the ladies of the Dorcas society of the Lutheran church of Gladstone, consisted of folk melodies that are familiar and dear to the Swedish people.

The numbers were presented in groups, quartettes and solos. There were also two accordion numbers, two readings in Swedish and a short discussion of St. John's day observances in Sweden to add variety to the program. Following the program, lunch was served in the church parlors. The festival was sponsored by the Bethany society of the Zion Lutheran church.

Obituary

CHARLES PIERCE
Funeral services will be held Sunday afternoon at 2 o'clock at the home of Mrs. Mabel Berger for Charles Pierce, a former resident of Thompson, who died Tuesday morning at his home in Detroit. The Rev. Ben Wyma will conduct the services and interment will be in Fairview cemetery.

Mr. Pierce, who was 57 years of age, is survived by his wife; two sons, Harvey and Arnold, in the armed services; three sisters, Mrs. Mabel Berger, of Manistique; Mrs. Theresa Guerin, Capolis, Wash.; and Mrs. Etta Tobler, Wadham, Wash.; and one brother, William Pierce, Capolis, Wash.

Mr. Pierce was a veteran of World War I. Members of the American Legion are asked to attend the funeral, wearing Legion caps.

Jack Curley Awaiting Transportation Home

Sgt. Jack Curley, who was for a time a prisoner of war after the bomber on which he was a crew member, was shot down over Holland, writes home that he is out of "Deutschland," and is in the little French town of St. Veliere en Caux waiting for transportation home.

Because of the current transportation shortage, the time of his return home is uncertain, he said. In the meantime, he is getting a furlough to England and expects to embark for America from there.

Fruit May Be Canned Without Use Of Sugar

Fruit may be canned successfully without the use of sugar, it was pointed out here by Mrs. L. L. Farrell, Delta county chairman of the Red Cross Nutrition committee, in response to many questions prompted by the new restrictions on canning sugar.

According to the best nutritionists, sugar does not act as a preservative and fruit will keep as well if it is canned without sweetening.

In canning fruit without sugar, the same procedure is followed as with sweetened fruit, except that boiling water or boiling fruit juice is substituted for the usual syrup. Although canned fruit needs no sugar as preservative, Mrs. Farrell pointed out that the small amount of sugar helps the fruit to hold color and flavor.

She suggested the following methods of "stretching" sugar for canning:

1. For canning choose only those fruits which are fully ripe and naturally more sweet.

2. Use a thinner syrup for canning the sweeter fruits. The recommended wartime proportion of sugar is one pound to four quarts of finished fruit. This makes a medium-thin syrup averaging about one-half cup sugar per quart of fruit. When fruits are precooked and packed hot—and solidly—it takes little syrup to fill the jar.

3. For juicy fruits, extract the juice from some of the fruit and use it in place of water in the canning syrup; then only a small amount of sugar is needed in the syrup for there is extra fruit sugar present.

4. Use corn syrup to replace up to one-third of the sugar or mild honey to replace one-half of the sugar in making regular canning syrups. Do not use molasses, as its flavor overpowers the fruit, gives it a dark color, and may cause spoilage.

5. You will not be able to can large quantities of food with your limited canning sugar ration, so plan your canning program to get a variety of foods and preserves, remembering especially the late season on many items.

Public Is Invited To Demonstration Of Power Sewing
Miss Margaret Patay of Chicago, superintendent of the Venus Foundation Garment company, will conduct a demonstration in power sewing machine operation at Room 211 in the Escanaba senior high school Monday night.

High school cooperative program students, who are planning to work at the Venus plant, and all other interested persons are cordially invited to attend.

The Escanaba factory now has more than fifty employees.

General Patton Returns

GENERAL GEORGE PATTON, JR., "Old Blood and Guts," returned home Thursday after two and a half years of battle to receive a tumultuous welcome in recognition of a masterful military achievement.

It was just two years ago that Gen. Patton was publicly censured and nearly lost his command for the unfortunate soldier-slapping incident in North Africa.

The spectacular way in which he redeemed himself by valorous and sensational victories on the European continent, from Normandy to Berchtesgaden, has earned him the gratitude of the American people. The speed with which Patton's armored spearheads of the Third Army raced across France and Germany under the command of the brilliant military strategist was a major factor in the final, unconditional surrender of Germany. All of the Allied Nations can be thankful now that Gen. Patton was not sidetracked because of his impetuous slapping of a hospitalized soldier.

Gen. Patton has asked for transfer to the Pacific war theater, even if the transfer necessitates a lowered rank from his present four-star status. The American people are hopeful that "Old Blood and Guts" gets his chance to practice his military strategy on the Japanese. No Army commander has a better knowledge of tank warfare than Patton, who stopped von Rundstedt's big counteroffensive in Belgium last Christmas.

Au Train Canal

THE Au Train canal project has bounced back into the news with the announcement that army engineers will hold a hearing at Rapid River on June 28 to determine whether a survey should be undertaken.

Back in 1935, a similar hearing was held in Escanaba, but the army engineers afterward turned in an unfavorable report. Rep. Fred Bradley of the Eleventh Michigan district was able to insert a request for the survey in the rivers and harbors omnibus bill passed by the present Congress. Calling of the hearing, consequently, is the usual procedure in such matters.

The proposal to bisect the Upper Peninsula from Au Train to Little Bay de Noc was first broached as far back as a half century ago. It was revived with much vigor in the depression thirties when the government was appropriating monumental sums of money for public works projects to furnish jobs for the unemployed. At the same time, much attention was given to the proposed Straits of Mackinac bridge project.

Announcement of plans to hold the June 28 hearing came shortly after word had been received that the government will wreck the No. 1 ore dock, thereby marking the end of the \$17,000,000 Escanaba ore dock project launched as an insurance measure against the possible destruction of the vital Sault locks by enemy action. Incidentally, the idea of building the Au Train canal to provide an alternate ore shipping route also had been suggested in the past.

It is very true that the digging of a long canal would provide many jobs in the event we have another serious depression after the war. Whether the Au Train canal dream will ever be realized is very problematical, however. It is an extremely long shot, and Delta and Alger county communities should not pin all their hopes on this one particular scheme in attempting to work out their economic salvation. It would be a good idea to get busy on other projects at the same time, instead of putting all "our eggs in one basket."

The Ban on Fairs

REPRESENTATIVE HOPE, Republican of agricultural Kansas, expressed criticism in Washington this week of ODT's ban on state and regional fairs while the lid has been lifted on horse and dog racing.

As the congressman points out, the privileged racing enterprises are 95 per cent gambling and five per cent sport. Much gasoline and rubber is consumed as the gambling crowds travel to and from the racetracks in Miami, Tia Juana and other spots.

But fairs, established centuries ago for the purpose of promoting agricultural development, are still on the restricted list, at a time when the farmers could use a little encouragement to produce more food for a nation at war.

Coal Has Many Uses

LIKE wood, the coal that is dug up from the earth has many other uses than merely being a fuel. Chemical engineers, for instance, have achieved miracles with the black diamonds.

Nearly all textile dyes are derived from coal. Dozens of chemicals and resins obtained from coal are needed to process or

finish fabrics. From coal come plastics for dress buttons, ornaments, shoe heels. Nylons are made of coal, air and water.

"Accessories to match" also owe much to coal; colors for lipsticks and nail polish, scents for perfumes, plastics for costume jewelry, handbag frames, compacts — altogether, more than 200,000 useful products depend upon this resource from the bowels of the earth. Here is an example of how the standard of living which we accept as normal is actually a miracle, a miracle supported by an intricate industrial system requiring millions of persons to keep it running.

Was Best Policy

THE International Red Cross now reveals that the Anglo-American policy of strict adherence to the Geneva Convention with regard to the treatment of prisoners of war paid off exceedingly well.

Despite the stories of Nazi atrocities, our government insisted upon abiding by the rules in the handling of German prisoners of war confined in this country. We now learn that this policy was instrumental in saving the lives of American fliers who had fallen into German hands. In one of his fits of insanity, Hitler had ordered that they be put to death, but the military authorities disregarded his orders, for they were well aware the Germans were being well treated in our prison camps.

The International Red Cross reports that 99 per cent Americans captured in Germany survived the Nazis' diabolical lust. The other one per cent were less fortunate, however, for administration over prison camps in Germany apparently was not uniformly good.

Someday, the German people will realize what fiends Hitler and his Nazi followers were. They will learn that the United States and other democratic nations tried their utmost to maintain some standard of civilization in this most destructive of all wars. If the future generations of Germans ever learn the truth, they will not likely regard Hitler as a heroic leader.

POSTAL WORKERS' PAY (Detroit Free Press)

Postoffice employees are asking public support of a bill before Congress which would grant them their first salary increase in 20 years.

They point out that during the depression their salaries were cut 27 per cent; that base pay is \$32-\$40 per week; that they receive less for overtime than for straight time, and that they are not exempt from city, state or Federal taxes.

The United States Mail is an institution that Americans have taken for granted for generations. The system is as dependable as the seasons and the most inclement weather does not stop its operations. "The mail gets through."

In this time of war it is almost the only connecting link between millions of young men and women in the service and their families back home. By the same token, the burden placed upon postal employees by the war, both as to increased personnel, has never been greater.

The mail doesn't "get through" by some miracle. Its dependability springs solely from the devotion and faithful, day-in, day-out, service of thousands of postal employees. By right and equity this vast army of Government workers more than deserves the \$1.90 per week increase provided for in the Postal Employees Salary Bill, passed by the House this month.

It is to be hoped that the Senate will add its sanction quickly.

BRITICISMS

Certainly I speak for many a person when I say that it is hard to understand why any native-born American should deliberately cultivate British pronunciations which are not good usage in America.

Perhaps such conscious affectations as, "diction'ry, milit'ry, secret'ry, circum'stances, proe-gress, dep-o (for depot)," and such agonized laborings as, "I am aghawst at the vawst disawster at the ehcrawft (aircraft) plawnt," stem from the misbelief that the so-called "English" language is ours only by virtue of some kind of reverse lease arrangement, and that, as an American correspondent stationed in London recently wrote in an American magazine article, "It (English) is their language, and we have done it wrong, and I think the British people have never quite forgiven us for it."

Incredible! Unfortunately, no. A mother writes from Chillicothe that a certain teacher of third grade English had told her classes that, "The English people are laughing at us," and was insisting that the children say "mahn" for man, and "ahnd" for and, "cahn" for can, etc.

My files contain numerous reports of a similar nature.

I am not suggesting that there is anything improper about the British speech. The way Britons talk is their own affair.

But this column would be remiss in its responsibility to the readers of the papers if it privileged to serve if it did not rigorously scotch the absurd idea that American usage should in any way be influenced or dictated by British usage.

As to those few misguided Americans who seek to prove the high degree of their "culture" by aping the British, one is reminded of the old story of the negro maid who always took home her mistress's grapefruit rinds, because, she explained, "Dey makes my garbage look so stylish."

World Events Analyzed

BY MARQUIS CHILDS

Washington—The Senate of the United States is a lonely place these days. You might be able to get a quorum of senators in Rome or in London or in Berlin, but it's hard to corral enough votes here in Washington, in spite of the fact that business of the utmost urgency is before the Senate.

Some of these senators would serve their country better if they stayed at home, and that goes especially for the little band headed by Senator Burton K. Wheeler of Montana. Officially it is a Senate sub-committee on communications. But its function seems to be to spread disaffection and disunity.

These junketeering senators appeared before a GI forum at a Red Cross club in Rome. While they tried to keep their remarks off the record, that didn't work and the story came out.

According to a reliable news account, the discussion inevitably turned to Russia and our relations with the Soviet Union. Finally, Senator Albert W. Hawkes of New Jersey, a Republican, put this question to the GI audience:

"How do you men feel, the great majority of your soldiers, who have fought the war and been here a long time? How do you feel about finishing the job of fighting the Russians?"

—WANT TO COME HOME—

Before the audience could make any response, one of the other senators, realizing what a boner this was, switched the subject. But if the Senator from New Jersey had talked to any GIs at all, he would not have needed to ask that question.

They are longing for home. They don't want any more war. They don't see any reason why he should fight Russia.

Such irresponsibility makes it all but impossible to carry out a reasonable foreign policy. Every incident of this kind is eventually reported to the Kremlin. Indiscreet talk on the part of some Americans at San Francisco was duly reported to the Russians.

Imagine the shoe on the other foot. Imagine a member of the Soviet Politburo or one of the top marshals of the Soviet Union addressing Russian troops and asking them if they were ready to go to war against the United States. Imagine what an uproar that would cause over here.

The Senate will soon have before it the critical issue of our time—participation in a world organization. The preliminaries essential to participation—reciprocal trade extension and the Bretton Woods monetary agreement—are just ahead.

The public will be watching the Senate. They will look for leadership. They will look for responsibility in the discussion of a question that touches the lives of all of us. They will remember that there were giants in the Senate once, men who spoke out of passionate conviction and profound knowledge.

—FEW HEARD LAFOLLETTE—

Last week Senator La Follette of Wisconsin delivered a long, carefully prepared and carefully reasoned speech on the new league and the issues of power versus democracy. Whether you agreed with his thesis or not, it was a speech that deserved respectful consideration.

Yet only three or four senators were on the floor as he spoke. One of them, fortunately, was the conscientious new senator from Arkansas, William J. Fulbright. He interrogated La Follette from time to time. Something like a debate, or at any rate a discussion, took place.

One of the new senators was talking privately about this very thing the other day. He has several ideas he wants to present.

"But you know," he said, "you feel so foolish standing there and talking to two or three people. Maybe I'll get used to it. But it's hard to have an audience."

Besides reciprocal trade and Bretton Woods, the continuance of OPA is coming up and action must be taken by the end of this month, when the price control act expires. That, too, is a measure that touches all of us vitally.

About 18 senators have been in Europe. Most of them are now on the way home. An effort will be made to keep them in this country while important measures are under consideration. That is their job, and the folks back home will be watching to see whether they do it.

Gracie Allen Says--

Tomorrow Los Angeles welcomes home two famous native sons—Generals Jimmy Doolittle and George S. Patton Jr. These two men have extended the city limits of Los Angeles farther than anyone ever did before.

They're flying in tomorrow and that Japanese maple tree in my backyard comes out tonight. I don't want Doolittle to get any wrong ideas about where he is.

Surely they'll ask the famous Generals to put their prints in the cement at Grauman's Chinese theater. They won't even have to have the cement soft for Patton—considering the way he went through the Siegfried line.

And incidentally, I'll bet Doolittle and Patton won't have any trouble getting hotel rooms here. The Germans tried refusing accommodations and look what happened to them!

That British and American English are not "a common tongue" is graphically set forth in my HISTORY OF THE AMERICAN LANGUAGE, a free copy of which is yours if you'll send a stamped (3c), self-addressed envelope to this column.

French Novel of Mystery and Intrigue

Good Morning!

—By The Bugler—

DAIRY INDUSTRY — Delta county is destined to become one of the leading dairy counties of the Upper Peninsula, a position it has already attained in the production of potatoes. That Delta county is solely a "potato" county is not true, for it has a considerable diversity in other crops. Dairying has a s, however, perhaps received less attention in the past than it deserves.

Dunathan

ant of these is the improvement of its dairy herds. For the past two years, through a cooperative program sponsored by Michigan state college extension service and the U. P. Development Bureau, purebred bulls are being brought to Delta and other U. P. counties from Lower Michigan.

The purebred dairy herd is the herd that pays big dividends to the farmer. Unless this is improved to the point where the profits are high because of increased production, the cows eat their heads off and the margin of profit is slim or non-existent.

DAIRY MONTH — Gov. Kelly has proclaimed the month of June as "Dairy Month" in the state of Michigan. In his official proclamation the governor cites the following:

"Dairy products are essential to the maintenance of human health and efficiency, both on the fighting front and on the home front. 'Dairy farmers and the entire dairy industry are exerting every possible means of producing the maximum amounts of these products under a tremendous handicap of shortages of manpower, equipment and repair parts.'"

The governor's proclamation also cites the need for "better understanding of the importance and use of these products," and designates June as "Dairy Month."

It is fitting therefore that a columnist devoted to the topic of dairying and its future in Delta county.

THE GOAL HERE—The dairy situation in Delta county is best known to E. A. Wenner, county agricultural agent, whose work brings him into almost constant contact with the dairy farmer. In his annual report for 1944, he sums up the dairy situation in the county as follows:

"The dairy cow furnishes the main farm income. Dangers of Bangs disease more widely accepted. Bull program of past year merely a start toward better dairying. Summer pastures need fertilization."

His office is cooperating in the program to bring more purebred bulls to the county, he assists farmers in purchasing feed when prices are right, and is encouraging them to use more phosphate on their pastures.

The goal for Delta county's dairy program is not so much one of larger herds and bigger pastures. It is better herds and better pastures.

The reason for this is simple. The largest profit is from the purebred herd with high production per cow. It costs no more to feed a good cow than a poor one, but the return on the good cow means more pocket money. And in this period of manpower shortage it is important to know that a small, high production herd can be cared for with less trouble than the large herd of average or poor production record.

QUALITY COUNTS—Speaking to the Upper Michigan Dairy Manufacturers conference in Escanaba last year, Wenner stressed the need for a cooperative program in which the dairy manufacturers

could help improve the quality of dairy products.

He pointed out that the dairy manufacturers complain because some milk brought to them is dirty and of poor quality—but they will pay the same price for it as for good clean milk.

In connection with dairy manufacturing, it might be pointed out that Delta county annually produces over two and one-half million pounds of cheese, over 200,000 pounds of butter, and about 60,000 pounds of ice cream.

COOPERATIVE PROGRAM — Cheese manufacturers of Delta county last year indicated their willingness to cooperate in a program encouraging the production of quality milk.

One of the factors in better milk production is the use of cooling tanks, and several of these have been made according to modern and approved specifications and installed on dairy farms in the county. These tanks were constructed of concrete and are insulated.

Last year the Dairy Herd Improvement association was reorganized in the county and the services of a tester was obtained. The importance of this tester service, which is paid for by the members of the association, is shown when the tests are reported.

These tests prove to the dairy herd owner what he may have been guessing at before—that some of his cows may not be worth their keep. The association is expected to grow in membership as the general plan of encouraging the local dairy industry continues in the years to come.

The Washington Merry-Go-Round

BY DREW REARSON

(Col. R. S. Allen now on active service)

Washington—Some time ago, this column told how the Nazis had sent out a propaganda broadcast to the European war theatre claiming that Colonel John Hay "Jock" Whitney, husband of the ex-Mrs. Jimmy Roosevelt and a close friend

of Harry Hopkins, had been critical of President Roosevelt while in a German prison camp.

The Nazi radio, as described in the column, told how Jock Whitney first refused to talk, later was placed with a German posing as a British officer, at which time he loosened up and, according to the Nazis, was critical of the President.

The Nazis used this to try to show how politics permeated the U. S. army.

Colonel Whitney later managed to escape from the German prison camp, when the box car in which he was riding was bombed and wrecked. He has since written this columnist a letter denying that he ever criticized the President, and has also set forth the interesting circumstances surrounding his capture.

In fairness to Colonel Whitney, whom this columnist holds in the highest esteem, the pertinent portions of his very interesting letter are published below, together with a transcript of the Nazi broadcast.

—WHITNEY KEPT NAME SECRET—

Colonel Whitney writes: "I have your reference of March 4th to the effect that I fed anti-Roosevelt propaganda to the Nazi machine while I was their prisoner. You got the wrong dope from somewhere and I'll tell you why.

"1. Since my one chance of escape depended on the enemy's not knowing that I was of any value to them, I remained anonymous even to my fellow prisoners. I was very careful not to talk familiarly about my name in order to avoid the slightest association with importance.

"2. Even if I had shot my mouth off to them, my conversation could not have been recorded since we were never in a prepared camp, but always on the move, and mostly always under fire.

"3. The only British-uniformed soldier I saw was well known to me.

"4. I escaped without the Germans having a clue as to my identity.

"5. If I had talked about the President, which I didn't, it would have been only in terms of the highest admiration for himself and his leadership.

—NAZI BROADCAST—

The Nazi broadcast, illustrating the extent to which the enemy went to try to confuse American troops, follows:

"Broadcast by D. N. B. in German language, by wireless, to Europe on November 3, 1944, at 6:34 —, M. EWT, quoting I. I. B. (International Information Bureau) under Berlin dateline.

"Berlin—Statements made by Colonel John Hay Whitney, American banker, after he was taken prisoner throw an interesting light on the American conduct of the war in France. I. I. B. has received the following extract from a report on the questioning of this American, Whitney, a prisoner-of-war, which took place on August 13.

"Situation in northern France — the Colonel who throughout the questioning was very reticent, became later very talkative and jolly in the company of other captured officers. He played poker with them and talked, among other things, about military and political questions. The discussion then turned to the situation in northern France. This was the most remarkable of his utterances:

"On August 20, the U. S. First Army, concentrated at Vernon as focal point was supposed to ford a crossing over the Seine. In view of the disorderly condition in the German rear, it was expected that a quick thrust would be possible, and at least nine German divisions would be cut off. According to American calculations, resistance on the German northern flank would then completely collapse, and the way would be open through Belgium into Holland."

"Changed orders—Colonel Whitney emphasized that this plan was cancelled at the last minute on orders from the highest authority (meaning President Roosevelt), and the focal point was shifted to the right flank so as to encircle Paris from the south. In his opinion, this was a complete mistake because a delay of at least ten days was unavoidable.

"Political reasons—he has the impression, which was shared by many high American officers, that quite intentionally and for political reasons, offensive operations were stopped. In the course of a later discussion, Whitney mentioned the name of General Patton who, if he likes to admit it, knows very well why the thrust at Vernon was not carried out."

—LINCOLN-ROOSEVELT BIRTHDAYS—

The question of making Feb. 12, Lincoln's birthday, a national holiday has now been put up to the Senate by North Dakota's Senator Langer in a manner difficult to dodge. Hitherto, southern legislators have opposed any national holiday for the Civil War President, but when Senator Downey of California introduced a bill to make Jan. 30, Roosevelt's birthday, a national holiday, Langer immediately introduced the Lincoln Birthday bill and insisted that the judiciary committee could not report one out without the other. Both bills will probably die in committee. . . . Two years ago Secretary of State Hull asked Attorney General Biddle to act as chairman of the Allied War Crimes Commission, explaining that the British wanted an American chairman. . . . "Anything the British want us to preside over means they don't want to do much about it themselves," replied Biddle, and he ducked the job. Some diplomats, watching the dilatory way Justice Bob Jackson has gone about trying Nazi war criminals, wish that Biddle had taken the job instead.

PASSES AWAYMrs. Elizabeth Sheridan
Died Friday Morning,
Funeral Monday

Mrs. Elizabeth Sheridan, 80, resident of Doyle township for the past 48 years, died early Friday morning at her home following a several years' illness.

Mrs. Sheridan was born in Flint July 9, 1864 and on May 21, 1884, was married at Flint to James S. Doyle. In 1897, they moved to Doyle township, settling on the farm which has been their home up to the present. She was, during her residence in Schoolcraft county, a member of St. Francis de Sales Catholic church.

Surviving her are her husband, son, Michael, at home; two brothers, Mark and Matthew, Chicago, Ill.; a grandson, Corp. James Sheridan, with the armed forces in Germany; and four nieces.

Funeral services will be held Monday morning at 8 o'clock at St. Francis de Sales Catholic church, with the Rev. Fr. B. J. P. Scheyers conducting the funeral mass. Burial will be in Fairview cemetery. The body will remain, until the time of the funeral, at the Morton funeral home.

Change In Plans
For Nurses' Meet

Due to current rationing restrictions making the serving of banquet meals a virtual impossibility, the management at Blaney Park has had to cancel the dinner meeting of the Manistique Nurses' organization, scheduled there Monday evening.

The organization, instead, will meet at the home of Mrs. G. A. Shaw on the same evening.

Round Table
Discussion

Officials from Delta, Schoolcraft, Luce, Chippewa and Mackinac counties have been invited to meet in Manistique on Friday, June 22, with Don Hatch, District FWA engineer and members of the Michigan Planning Commission for the purpose of discussing the federal planning aid program.

Arrangements for such a meeting were made Friday morning by C. D. Manson after he had received a message from Don Weeks, director of the commission requesting that he attend to the matter. The meeting is called for 4 o'clock in the afternoon and will be held at the Elks temple.

The District FWA engineer is making a quick trip through the state at that time and is calling for a series of conferences at centrally located points, Manistique being one of the places selected.

William Edmonson, deputy director of the planning commission, will probably accompany Mr. Hatch and aid in the discussions, the telegram to the city manager stated.

Scout Day Camp

Mrs. Grier Ivory will be the director of the Girl Scout day camp to be held here July 16-19 and 23-26 at Bunker Hill just south of the Marble Athletic field. It is announced, Mrs. Ivory will receive two weeks director's training at Camp Metamora, near Detroit, before the opening of the local camp. Leaders and day camp counselors will receive training at Camp Timber Trail.

Plans for the summer camp are progressing nicely under a committee headed by Wallace Cameron.

It is estimated that there will be about three units in each day camp session, one Brownie and two Intermediates. Several of the senior service and mariner Scouts will serve as program aides.

A splendid program of camp craft, swimming, nature lore, games and outdoor cookery has been arranged.

Folders were given out this week to the Scouts explaining the program, requirements and cost. Registration should be made as soon as possible.

WHITE SOX BOW TO DETROIT 2-1

Twilight Tilt Launches Four Game Series As 14,385 Watch

Detroit, June 8 (P)—The Detroit Tigers grabbed the American League lead here today by beating the Chicago White Sox, 2 to 1, in a twilight game before 14,385 fans in the opener of a four-game series.

First (Joe) Orrell, tall Tiger right-hander, hurled four-hit ball in Detroit into first place but Paul (Dizzy) Trout was called in to retire the Sox in the ninth after Orrell put the first two batters on base.

It was Trout's first relief appearance of the season, but the victory went to Orrell, who had lost both his two previous starts. Detroit scored both its runs off starter Thornton Lee, Chicago left-hander, who gave six hits before retiring for a pinch-hitter in the seventh.

Chicago Pitches Bases
Roger Cramer's double to left, Jim Outlaw's single to center and Bob Swift's two-base knock down the left field line contributed the two Tiger tallies in the fourth. Chicago counted in the eighth when Wally Moses walked, took second on an infield out and scored on Johnny Dickshot's single.

Orrell escaped trouble in the seventh when Chicago filled the bases with one out and Trout retired Kerby Farrell, last Chicago batsman in the ninth, with the sacks jammed.

The one-run victory was Detroit's 10th this season and put the Tigers nine percentage points ahead of the New York Yankees.

Detroit thus took the league lead for the first time this season by equalling its longest winning streak—three straight.

Less Mueller was Manager Steve O'Neill's choice to oppose either Frank Papish or Lee Ross of the White Sox in tomorrow's single game.

SEVEN FOR GROMEK

Cleveland, June 8 (P)—Steve Gromek gained his seventh victory against a single defeat tonight as he scattered eight hits to pitch the Cleveland Indians to a 2-1 victory over the St. Louis Browns. Nelson Potter suffered his fifth loss against four winners for the Browns.

Gromek fanned eight of the American league champions as he protected a two-run lead furnished by five Cleveland hits in the first two innings. Dutch Meyer, rookie second baseman, smashed three of the Tribe's seven hits, including two doubles, scored the first tally and drove in the second.

The phenomenal Pete Gray led the Browns' attack with a triple and single, scoring their only marker in the sixth frame. St. Louis 000 001 000-1 7 0

BONHAM FAILS

New York, June 8 (P)—George Metkovich's two-run homer in the seventh cemented a Boston Red Sox 6-4 decision over the New York Yankees today for the visitors' 14th victory in their last 19 starts.

The loss knocked the Yanks out of the American League lead as a result of Detroit's victory over Chicago. Going into today's games, the Tigers were only a game back with the prospect of taking a nine-percentage point lead by a triumph.

Ernie Bonham failed Manager Joe McCarthy for the fifth time

after grabbing an early 3-0 lead by batting home Nick Etten and Russ Derby in the second and cashing Oscar Grimes' double on an infield out in the fourth.

Joe Cronin's high-flying gang kayoed Bonham in the sixth scoring four times on a combination of a walk to Eddie Lake, singles by Metkovich and Bob Johnson, an error by Russ Derby, another single by Pete Fox and a double by Tommy McBride.

McBride's poke brought Gattel to the scene to stop further damage by allowing one hit in the remainder of the game.

Derby was in center field for the Yanks, replacing Johnny Lindell who was inducted into the army today, making his first starting appearance in about three weeks.

Derby Strip Soaked; 16 Horses Entered

BY ORLO ROBERTSON

Louisville, Ky., June 8 (P)—Sixteen finely tuned three-year-olds finely turned three-year-olds today accepted the issue for the 71st Kentucky Derby with the prospects that F. W. Hooper's Hoop Jr., would go postward the favorite to show the way home over Churchill Downs' racing strip soaked by two days of rain.

If the 13 colts, two geldings and one filly face the barrier tomorrow at about 5:15 p. m., Central War Time, it will be the richest derby in history with a gross value of \$86,375. The winner of America's premier turf event, expected to attract more than 60,000 fans, will take down a net purse of \$64,550—topping the previous high of \$64,675 won by Pennine last year.

For each withdrawal, permitted until 45 minutes before post time, the purse will be reduced by the starting fee of \$500. Two of the field named through the entry box probably will be scratched if the going remains muddy as it was today. They are Burning Dream, carrying E. R. Bradley's hopes for his fifth derby victory, and Tom Graham's Kenilworth Lad, an outsider coupled with Bert G. in the betting. Final decision as to Burning Dream will be made by Brad-ley, who, because of ill health, will not see the race.

Another heavy rain, following yesterday's downpour, left the track in the worst condition since Clyde Van Dusen plowed through mud to win in 1929. The sun finally broke through the clouds this afternoon but it would take plenty of help from old soil to make the track anywhere near fast, and the weatherman doesn't promise too much for tomorrow.

Despite the prospects of bad going for the mile and one-quarter, Hoop Jr., winner of one division of the Wood Memorial at Jamaica ten days ago, vaulted into favoritism at odds of 5 to 2. The mile and one-eight workout turned in by the son of Sir Gallahad 3rd last Wednesday was so sensational that horsemen and laymen, alike, figure he'll be the horse to watch from the time they swing out of the gate. His chances also are enhanced by the way he'll be piloted by Eddie Arcaro, only jockey in the race ever to win the derby. He scored with Whirlaway in 1941 and Lawrin in 1938.

Col. C. V. Whitney's Luck and Warren Wright's Pot O' Leap were made 4 to 1 co-second choices off the former's triumph in one section of the Wood and the latter's known ability to run all day. Wright won with Whirlaway and Pennine. His trainer, Ben Jones, is seeking his fourth victory, having also scored with Lawrin.

DERRINGER HAS NEAR SHUTOUT

Three Cincy Pitchers Nicked For 14 Hits By Mates

Chicago, June 8 (P)—The veteran Paul Derringer handcuffed his one-time teammate from Cincinnati today to give the Chicago Cubs a 7-3 victory over the Reds in the opener of a four game series before 3,446 fans.

Derringer had little trouble winning his seventh victory of the year as his mates rallied behind him for 14 hits off three Cincinnati pitchers, and came up with a four-run burst in the seventh to break a 3-3 tie.

Only in the first of the seventh did Derringer weaken. He had a three run lead at the time, and appeared headed for a shutout when Dick Sipek tripled, Eddie Miller was safe on an error and Catcher Al Unser hit a curve ball into the left field stands for a two-run home.

TWELVE GAMES LOST

Brooklyn, June 8 (P)—Curt Davis stretched the Philadelphia Phillies' losing streak to 12 games tonight as he pitched the Brooklyn Dodgers to a 9-1 decision on a five-hit job.

Oscar Judd, recently acquired by the Phils from the Boston Red Sox, made his first starting appearance and failed to last through the second frame in which the Dodgers bunched four-hits to score four runs.

The Brooks, paced by Goody Rosen with a double and two singles, picked up another score in the third and two each in the fourth and sixth.

Andy Seminick tripled in the second and came in with the Phils' only tally on an error by Eddie Basinski.

CHAMPS TURN TABLES

St. Louis, June 8 (P)—The St. Louis Cardinals, defending second place, downed the Pittsburgh Pirates 4 to 3 in a 13-inning game at Sportsman's park tonight.

With the score 2 to 1 against them in the ninth, the world champions tumbled Southpaw Al Gerheauser for three hits, scoring the tying run.

Qualifying Begins

Today In Director

Cup Golf Tourney

Qualifying will begin today at the Escanaba golf club in the Director's Cup tournament, the first major golfing event of the season. This will be a handicap event, with every player receiving full handicap. All qualifying scores must be turned in by Friday night, June 15.

Play for the cup will begin June 16 and the finals are to be played on or before July 1. All club members are invited to participate and each has an equal chance to win.

About 25 members have signed up thus far to go to Marquette tomorrow for the first inter-city match of the season. Players desiring to go and who have not already registered with the club professional, Cotton Leonard, are requested to do so today. Play will start at 1:30 o'clock.

Player To Catch Baseball Shot Out Of Cannon At Park

Philadelphia, June 8 (P)—A 75 mm. cannon "pitched" a baseball to a heavily padded player today and he caught it.

The stunt, staged for the war bond sports carnival to be held here Monday.

The committee in charge declined to reveal the identity of the back stop. He is a baseball player but will appear on the program only as "Ian Brokaw."

"Brokaw" stood 125 feet from the cannon. Maj. Thomas C. Veale pulled the lanyard. The gun barked and "Brokaw" was swept back several steps. But he had the ball in his glove.

LIONS PLAY REDSKINS

Washington, June 8 (P)—The Washington Redskins announced today they will play the Detroit Lions in Baltimore, Sept. 30, in a National Professional Football League exhibition game.

The Variety clubs of Washington and Baltimore will sponsor the contest with R. A. O'Connell acting as manager.

Haifa has one of the finest and most picturesque harbors in the world.

Big League Stars Play 'Dream Game' June 24 On Oahu

Honolulu, June 8 (P)—Baseball's "dream game," bringing together major league stars now in the army and navy, is to be held on Oahu Island June 24.

Dave Herman, of the Army paper Stars and Stripes, said it was hoped that the game might be the forerunner of a series between the winner and either the American or National League champions or the World Series victor.

Such a series might be held in the Pacific ocean area, he said. The "dream game" teams will be American and National League allstars, with George Tebbets, former Detroit catcher, managing the American and Billy Herman, former Brooklyn second baseman, handling the National League.

Bill Dickey, Ken Sears, Rolfe Hemsley, Joe Gordon, Billy Hitchcock, Walt Judnich and Freddy Hutchinson are among the hitters who will tee off against Howie Pollett, Clyde Shoun, Hugh Casey, Johnny Beasley and Vern Olson.

The Sports Parade

By Ken Gunderman

The Detroit Tigers are searching frantically for a long-ball hitter to give the club a cleaner-upper that is so urgently needed, but it's no use. Both the Tigers and the Yanks were angling for Jeff Heath, dissatisfied Cleveland slugger, but the Indians apparently have decided to hold on to Heath. The Tigers have lost many of their games simply because they

lacked a slugger who could drive in runs in the clinches. They'd give plenty to have Wakefield back in the lineup.

The Tigers continue to get top rate pitching, probably the best in the league but many well pitched games are lost because too many Tigers are left stranded on the bases. Even with Benton out of action indefinitely, the Tigers have had no fault to find with the pitching. Mueller, Orrell and Wilson have done creditably and Overmire and Newhouse carried the load while Benton and Trout were out of action. Dizzy is ready to resume his regular turn on the mound, but it may be mid-summer or later before Benton can return to action.

Haegg Takes 3,000 Meter Run In 8:25

Copenhagen, Sweden, June 8 (P)—Gunder Haegg, who returned to his native Sweden only a month ago from a U. S. tour, thrilled a crowd of 10,000 spectators by capturing the 3,000 meter run in 8:25 today.

It was a close race for the first 2,000 meters, but after the two thirds mark, the flying Swede shook off all competitors and won handsly.

The depth of Grand Canyon at Bright Angel Trail to the Colorado River is 4,460 feet.

The Detroit club, however, still remains the No. 1 worry to the New York Yankees, who are confident that they will capture the league flag this year if they can only hold those Tigers. The Bengals have a three out of five edge on the Bombers thus far, including two out of three in New York, the first team in the circuit to

win a series at Yankee stadium this season. There is a growing suspicion that the American league race will whittle itself down to a two-team fight between the Tigers and the Yanks.

Several weeks ago in Detroit, an enterprising newspaperman seized on an utterance of Luke Sewell, declaring the strike zone had been changed by the umpires to a distance between the solar plexus and the thigh, to draw up a diamond—with a hitter—showing what he called the old and new strike zones. The day the diagram appeared in the paper, Cal Hubbard called a strike on Rudy York, which made the big Indian look around in protest. "I'm still calling 'em according to the old zone," said Hubbard, before York could protest. York grinned and turned back to his place in the batter's box.

Hit and Miss—The biggest worry in the big leagues at the moment is transportation. It will be a miracle if some games aren't postponed because the traveling team couldn't get to the ball park. Mel Ott's fine of \$500 slapped on Bill Voiselle for a "fat pitch" on a 2-0 count is generally regarded as a ridiculously high fine, probably imposed in a moment of anger. . . . 36 leagues have asked permission to operate in 1946, but few will get approval before 1947.

THEY'RE FIGHTING TWO BATTLES ON ONE BEACHHEAD!

In fierce, bloody struggles to wrench the stepping stones to Tokyo from the enemy, our fighting men are engaged in two battles—one, a combined land and sea operation—the other, in the skies overhead.

AT HOME, WE HAVE TWO WAR LOAN DRIVES ROLLED INTO ONE! No, we can't compare our

"sacrifices" with their sacrifices. Yet this mighty 7th War Loan Drive—taking the place of two drives up to this time last year—is also vital to the progress of the war. Remember this is the biggest drive of all—our dollars, too, have a double job

and now mean more than ever! For our forces and supplies must cover vast distances. War Bonds—your dollars—help pay the tremendous cost, and, at the same time, are your best investment in today—and tomorrow. So pitch in—throw your might into this great drive—you've got to fight two battles on one beachhead, too!

MRS. CHENIER IS ACQUITTED

Watson Child Slayer Is Committed To Ionia Hospital

Marquette—Mrs. Margaret Chenier, 25, wife of Daniel Chenier, Watson, Wells township, who shot and killed her 3-year-old daughter, Mary Loretta, with her husband's rifle on the morning of March 3, 1945, was found not guilty, because of insanity, by Judge Bell in circuit court, and was ordered committed to the Ionia state hospital for criminally insane, where she must remain for life or until discharged by the hospital as cured.

Mrs. Chenier shot Mary with a 32-40 rifle about 10:30 in the morning of March 3, as the child sat at a table in the two-room log cabin playing with crayons and making paper rings. The husband and Chester Delvaux, 18, were cutting wood not far from the home. When they returned to the cabin at 11:30, Mrs. Chenier related that she shot Mary because "she didn't like me any more."

The father found the child's body covered with a blanket, on the floor. Officers who investigated the case said the mother apparently stood about 10 feet back of the child when she fired the shot and that death was probably almost instant. During an examination after being removed to Marquette, Mrs. Chenier said she had stood in the doorway to the combination kitchen, dining and bed room, in which Mary was playing. The bullet entered the child's shoulder and came out through the chest, grazing the left wrist. The bullet was found in the table drawer, having penetrated the table top.

When Mrs. Chenier told her husband and Delvaux what she had done, Delvaux notified the state police post at Gladstone and the message was relayed to state police headquarters in Marquette and to Coroner Marvin P. Fassbender and Prosecuting Attorney John D. Voelker. The case was investigated by Coroner Fassbender, Jack Miller of the Marquette state police post and Mason Meyer and George Strong of the Gladstone post.

Two years before Mrs. Chenier shot her only child, she attempted to kill herself with the same weapon she used in March. She was hospitalized for 39 days following infliction of the wound. Her husband had kept the gun hidden in the small cabin, but shortly before the day on which she shot the child, Mrs. Chenier found the gun and likewise found two cartridges.

Mrs. Chenier was held in the detention home in the Marquette county jail for a time was treated at the state hospital in Newberry before being brought into court.

Clarence DeLisle Gets Bronze Star For Shell Removal

Pfc. Clarence W. DeLisle, son of J. A. DeLisle, 814 Second avenue south, and husband of Mrs. Elizabeth DeLisle, 1501 Fifth avenue, has been awarded the bronze star medal for assisting in the removal of an unexploded 20mm anti-aircraft projectile from the abdomen of a patient on Leyte, it has been announced.

The citation from the commanding general of the Eighth Army follows:
"Private First Class Clarence W. DeLisle, Medical Department, United States Army, is awarded the Bronze Star Medal for meritorious achievement in connection with military operations against the enemy in the Philippine Islands from 23 October, 1944 to 28 February, 1945. During this period on Leyte, Pfc. DeLisle rendered noteworthy service in the operating room of a station hospital. He worked diligently and efficiently for many long hours under difficult circumstances, and exercised great care and technical skill in the performance of his duties. On 12 November 1944 he contributed to the success of a surgical team in the removal of an unexploded 20mm anti-aircraft projectile from the abdomen of a patient. Pfc. DeLisle's outstanding performance of assigned duties was a great inspiration to all members of the hospital."

In a letter to his father, Pfc. DeLisle reported that nine enlisted were awarded the bronze star medal and that he was the only private to be honored.

Army Air Force Demonstrates At Marquette Monday

Upper Peninsula educators are invited to attend a demonstration to be given at Marquette on Monday, June 25, at 1:00 p. m. in the college gymnasium. The demonstration will be presented by the Army Air Force, which has selected Marquette as one of the two or three sponsors of such a demonstration in the state of Michigan.

The chief purpose of the display is to demonstrate the special educational techniques developed by the armed forces in this war. These new methods of rapid, concentrated training, and the utilization of numerous visual and other teaching aids have caused wide comment and controversy. Educators generally agree that the training experience of the Army Air Force should not be lost to civilian school men. The army emphasizes, however, that the plan is not designed to force any educational program upon civilian teaching. The utilization of the training aids and teaching techniques will be presented to school men to take or leave, as they may deem fit.

Nine area teams have been formed by the A. A. F. to cover the entire country. The team serving the Upper Peninsula is based at St. Louis, Mo. All members of the group were instructors in the A. A. F. Training Command, and in civilian life were engaged in the field of education. The team travels in a van, and brings and sets up all its material.

Colen Hungerford Receives Promotion From Michigan Bell

Colen W. Hungerford, general advertising manager for the Michigan Bell Telephone company, has been appointed assistant to the vice-president-public relations for the company.
Hungerford has headed the company's advertising department for 26 years. He came to the company in 1919 from the Associated Press at Detroit and, before that time, had been city editor in Calumet for the Mining Gazette. Combat Engineers Operate Railroad, Jenkins In Charge

With V Corps in Germany—When the "Shortin Bull Express" screams its way through a tiny Thuringian town to and from the front, watching Germans shake their heads and marvel. It wasn't like this in "the good old days."

And it wouldn't be this way if the men of the 254th Engineer Combat Battalion knew anything about railroading; but what they know about it is limited to what they could learn in three weeks when 28 miles of bombed tracks and several wheezing engines were dropped into their laps.

Within nine days after the engineers took over the railroad, the line was extended from its original 28 miles to 134 miles of track. Much reconnaissance and repair work was necessary before the full 134 miles was ready.

In one case the combat engineers were faced with a locomotive with locked wheels blocking their right of way. In typical engineer fashion they simply greased the tracks and skidded the engine 100 yards to the siding.

To get the line in operation it was necessary to fill bomb craters, lay an additional 1000 feet of new track, corral a motley collection of rolling stock, and remove damaged cars and engines.

On the first few runs made by the "Shortin Bull Express"—which adopted the nickname of the battalion—the crew members had to dismount at one particular section of the track, jack up the track, and then proceed slowly across the low spot with the train. Since then a gang of civilian section hands have repaired the road bed at that place.

Early in the reconnaissance stage, one group of engineers checking boxcars discovered one that contained a box of about 30 German Lugers and P-38 pistols. From that time on the reconnaissance work went ahead with a zest.

Station masters all along the way were notified to get all rolling stock ready. At one point, midway on the line, 20 cars and locomotives had been deserted and had to be removed before further progress could be made. Originally pressed into service to haul gasoline from a nearby C-47 airstrip to the front, the "Shortin Bull Express" now operates on a regular schedule. The section going toward the front hauls gasoline and rations, and the section going to the rear hauls German prisoners of war, displaced persons and freed Allied Prisoners of War.

With the exception of a few men in the battalion who have had previous experience in railroading, the program is an entirely new one for the men of the 254 Combat Engineers who earned for themselves a Presidential Citation when they were employed as infantry in the historic Battle of the Bulge.

Commander of the versatile battalion is Lt. Col. Loren W. Jenkins, Terrace Apartments, Escanaba.

2 Escanabans Will Graduate At N. U.

Two Escanaba residents will receive degrees and diplomas at the 87th annual commencement exercises of Northwestern university in Evanston on Wednesday morning, June 13.

They are Vernon Kenneth Johnson, 1227 Stephenson avenue, doctor of dental surgery, and Donald C. Eugene Petersen, 1216 First avenue south, bachelor of medicine.

Methodist Bishop Edwin F. Lee of Malaysia and the Philippines will be the speaker. President Franklin B. Snyder will deliver the charge to the graduates and will preside at the exercises.

The baccalaureate service will be held Tuesday evening, June 12, with the Rev. Duncan H. Browne, rector of St. James church of Chicago, as the speaker.

Degrees will be presented to a number of students in the Navy V-12 and ROTC units on the campus, and many graduates who are now in the armed forces will be awarded degrees in absentia.

C&NW FOREMEN HOLD MEETING

Training Program Con- ducted At Grenier Hall Here

Christian A. Ruckmick, supervisor of training, Chicago and North Western system, conducted a supervisory staff meeting for local foremen and supervisors of the railroad yesterday afternoon at Grenier's hall. He was introduced by T. M. Cassidy, superintendent.

Before showing three films prepared as visual aids in the North Western training program, Dr. Ruckmick outlined the objectives of the program. Emphasis was made upon the fact that the program is designed to strengthen employee-employer relationship, to increase production and improve service.

"If our worker hasn't learned, then our trainer hasn't taught," Dr. Ruckmick, a psychologist formerly on the staff of the University of Illinois, declared.

"Peace begins among ourselves. We cannot hope to have world peace without establishing peace among ourselves. We cannot leave the problem of world peace to the San Francisco conference, or to Eisenhower or Molotov. We must first learn how to live among ourselves courteously and harmoniously."

The three training films shown stressed the necessity of foremen learning how to treat individuals on the job as well as the machines they operate, how to avoid the spreading of grievances by stepwise procedure, and proper and improper ways of reprimanding subordinates.

The speaker declared that increased courtesy, better service and increased production will enable the railroads to keep pace with the competitive facilities of bus lines, air lines and other types of transportation.

Briefly Told

Aid Orthopedic Room—Section 7-5 of the Escanaba junior high school recently contributed the balance of funds in its treasury to the orthopedic room. B-6 And C-6 Gas Coupons Invalid After June 30th

"B-6" and "C-6" gasoline coupons, which local War Price and Rationing Boards stopped issuing in March, will not be good for consumer use after June 30, 1945, the Office of Price Administration announced.

Most of these coupons have already been used, the agency said. The few remaining will be taken out of circulation, in line with OPA's customary policy of periodic invalidation of gasoline coupons.

Consumers who have any of these coupons that represent an unexpired ration may exchange them for valid coupons at their local boards.

Service station operators will have ten days, or through July 10, 1945, to surrender these coupons to their suppliers for gasoline, or to their local boards for ration checks. Distributors have until July 20, 1945, to deposit these coupons in their ration bank accounts.

The U. S. Post Office Department handles approximately 500,000,000 pounds of newspapers and magazines annually.
